Horses are more than just your hobby or business, they are your passion.

You admire their beauty and cherish the relationship you share. Everything from the stalls they occupy to the fences that keep them enclosed are essential to ensuring your horses stay healthy and protected.

Morton Buildings understands the importance of providing a safe building for horses and a stylish facility for their owners. That's why equine enthusiasts, no matter the discipline, choose us to construct their buildings. Our building components have been proven to stand up to the abuse that horses inflict on their surroundings. The building's layout, ventilation and overall functionality are also taken into consideration throughout your project.

“When I bring the horses in at night and put them in their stalls and I go down to the house and go to bed, I know they are going to be safe.”

Dr. Susan S. • Montrose, CO

DEPENDABILITY

Morton Buildings is one of the largest, most established builders in the U.S. We will be in business to serve you now, and in years to come.

“Not only did they [Morton] construct a very high end facility for us, but they also remained involved after we were here.”
Joe E. • Versailles, KY

From concept to completion, Morton Buildings sales consultants listen and work with you to develop your building plan. We know you probably have a vision of your stall barn or riding arena, and it is our job to help you fill-in the details to make that vision a reality. Our sales consultants have worked on countless stall barns and riding arenas and can offer suggestions and advice on how to create a safe, functional building while staying true to your style. Your building is constructed by experienced crews who understand the importance of safety and keep that in mind throughout the construction process. Even after your building is completed, Morton Buildings stands behind you with the strongest, non-prorated warranty in the industry. The end result is a beautiful building that you can be proud to own for years to come.

In the following pages, you will see just how versatile Morton buildings can be and read what customers have to say about their building experience. Regardless of what features and options our customers choose, they all have one thing in common—a quality building constructed by an experienced company that is dedicated to serving its customers.

VALUE

Morton buildings are constructed to last through the generations and are backed by the strongest, non-prorated warranty in the industry.

“I would recommend Morton to anyone.
The design, the colors, the way they put
it together, their shipping, their crew...
They do a great job.”

Wayne K. • Kingsbury, NY

FLEXIBILITY

Post-frame construction gives you the freedom to lay out your stall barn in a way that best fits your needs.

“The guy [sales consultant] had a lot of knowledge as far as taking what little bit we gave him and then he took it and ran with it... When you go to build a barn it’s a one time deal, one build. You don’t just rebuild if you don’t get what you wanted at first.”

Kenny J. • Boston, GA

EXPERIENCE

Morton understands the need for a safe equine facility and has the knowledge to work on any building project from the simple to the complex.

“It is a wonderful investment...You have a quality building that is going to last for your generation and beyond and withstand the use that it is being built for.”

Melissa V. • Bluffton, SC

VARIETY

From stall barns to riding arenas and steel siding to stone, Morton Buildings has countless features and options to choose from for a truly customized building.

“Man this is a great barn. People that don’t have Morton barns wish they did have one after looking at ours....
They have a lot of extras
that you aren’t going to get with local builders.”

Paul P. • Cypress, TX

INNOVATION

Morton continues to look for features that add to the function and style of your equestrian building.

“We wanted the extra little warm touch
to make it all look like a home
for us and our horses,
who are like our children.”

Jamie B. • Bloomington, IN

CAPABILITY

Morton constructs thousands of buildings each year and less than two percent of them are alike.

“It’s basically a maintenance-free building...”

The only maintenance I have to do is once in a while wash it down with a power washer to get the dust down.”

Ray B. • Crawford, CO

SERVICE

From concept to completion and beyond,
Morton Buildings stands behind your project.

We hope you have enjoyed seeing what Morton Buildings can create for you and your horses. No matter how simple or complex, we pay careful attention to each detail of your equestrian building to ensure that it is safe and comfortable. Our quality components and experienced employees ensure your building will be constructed to meet your needs and exceed your expectations for years to come. Whether you're ready to start your building project or would like to learn more about Morton Buildings' equestrian buildings, contact your local construction center. Your local sales consultant can answer questions and provide you with our accessories guide.
